

Muhammad Sohaib Khan Niazi

DevOps & Cloud Infrastructure Engineer

Lahore, Pakistan · +923056927910 · sohaibkhanniazi1997@gmail.com · LinkedIn: Sohaib Khan Niazi

PROFESSIONAL SUMMARY

DevOps and cloud infrastructure engineer with 2+ years of hands-on experience, specialising in OpenShift/Kubernetes at scale and multi-cloud environments. Designed and delivered a production private cloud platform built on OpenShift, spanning cluster provisioning (IPI/UPI), AI/ML workload enablement, Ceph and LVM storage architecture, and deep day-2 operations. Brings strong AWS expertise across compute, serverless, managed databases, AI services, and networking, paired with GitOps-driven CI/CD and enterprise observability through Splunk Enterprise and Splunk o11y Cloud. Equally comfortable at the infrastructure layer and the application delivery layer — bridging platform engineering with developer productivity.

EXPERIENCE

DevOps & Cloud Infrastructure Engineer

Onstak

November 2025 – Present

- Architected and deployed a **private cloud platform** built as an application layer on top of OpenShift, enabling self-service infrastructure for internal teams.
- Provisioned OpenShift clusters using both **IPI (Installer-Provisioned Infrastructure)** and **UPI (User-Provisioned Infrastructure)** methods across multiple environments.
- Managed infrastructure-level storage including **LVM, Ceph Storage, and OpenShift StorageClasses**; designed persistent volume strategies for stateful workloads.
- Configured **OpenShift AI workload environments**: deployed GPU operators, Node Feature Discovery (NFD), and model-serving operators to support LLM and ML pipelines.
- Deepened Kubernetes expertise across multiple flavours, specialising in **Red Hat OpenShift** — including cluster lifecycle, RBAC, OVN-Kubernetes networking, and day-2 operations.
- Delivered advanced observability solutions using **Splunk Enterprise and Splunk Observability Cloud (o11y)**, building dashboards, alerts, and log pipelines for production systems.
- Managed broad **AWS infrastructure**: EKS, ECS, EC2, VPC, Lambda, RDS, Bedrock, S3, Route 53, IAM, SQS, ECR — including architecture reviews and cost optimisation.
- Built and maintained **CI/CD pipelines** using ArgoCD (GitOps), GitHub Actions, and Bitbucket Pipelines; enforced progressive delivery and rollback strategies.

DevOps Engineer

Maqware Solutions, Lahore

February 2024 – October 2025

- Managed cloud infrastructure for a team of 25+ developers across staging and production Linux environments, ensuring high availability and cost efficiency.
- Designed tailored AWS environments for MERN, PHP/Laravel, and Django application teams; configured and maintained automated CI/CD pipelines.
- Developed cloud infrastructure cost estimation frameworks, reducing AWS spend through right-sizing and reserved instance strategies.
- Implemented Dockerised environments across client projects; introduced Kubernetes-based orchestration for scalable microservices deployments.
- Managed domain registrars, DNS (Route 53), and hosting services; enforced IAM least-privilege and VPC security best practices.

TECHNICAL SKILLS

Kubernetes & OpenShift

OpenShift (IPI/UPI), OKD, EKS, AKS, GKE · Cluster lifecycle, RBAC, OVN-Kubernetes · GPU/AI operators, NFD, Model Serving

Cloud Platforms

AWS (EKS, ECS, EC2, VPC, Lambda, RDS, Bedrock, S3, Route 53, IAM, SQS, ECR, CloudWatch) · GCP · Azure

Private Cloud & Storage

OpenShift-based private cloud platform · Ceph Storage · LVM · StorageClasses · Persistent volumes

Observability

Splunk Enterprise · Splunk Observability Cloud (o11y) · Grafana · Prometheus · CloudWatch

CI/CD & GitOps

ArgoCD · GitHub Actions · Bitbucket Pipelines · GitOps workflows · Progressive delivery

Infrastructure as Code

Terraform · Bash scripting

Containerisation

Docker · Docker Compose · Podman

Networking & Security

Version Control

OS & Server

VPC design · Route 53 · TLS/SSL · IAM & RBAC · OVN-Kubernetes · Ingress/Egress policies

Git · GitHub · Bitbucket

Linux (RHEL, Ubuntu, CentOS) · Nginx · Apache

EDUCATION

Bachelor of Engineering

Ondokuz Mayıs University, Türkiye · Graduated 2023

CERTIFICATIONS & AWARDS

- **AWS Certified Solutions Architect – Associate**
 - **HashiCorp Certified: Terraform – Associate**
 - **Türkiye Burslari Awardee** – Fully Funded Undergraduate Scholarship by the Turkish Government
-

LANGUAGES

English · Turkish · Urdu
